

ATS137

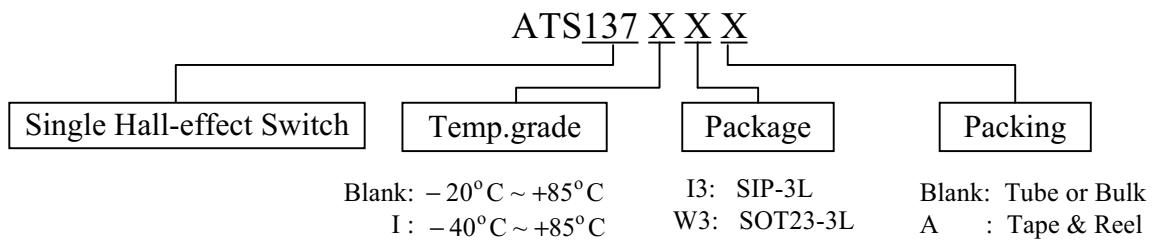

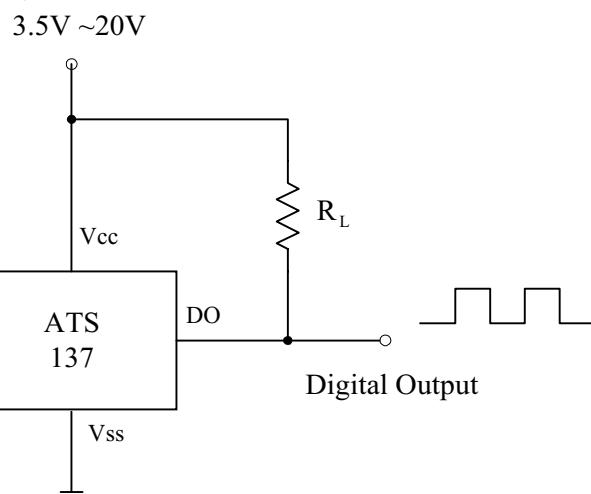

Single Hall Effect Switch

■ Features

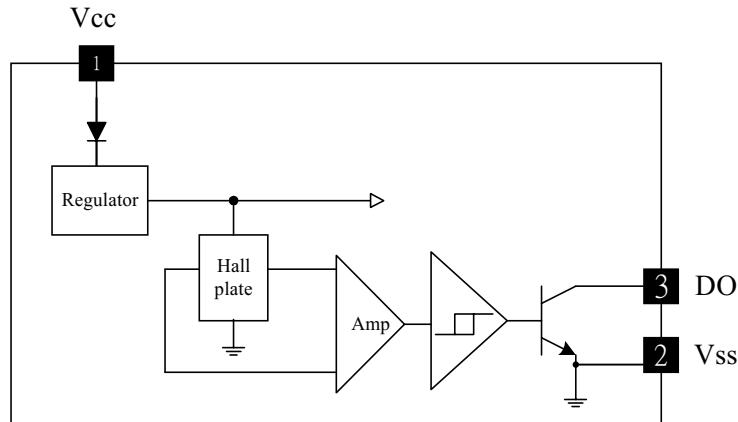

- 3.5V to 20V DC operation voltage
- Temperature compensation
- Wide operating voltage range
- Open-Collector pre-driver
- 25mA maximum sinking output current.
- Reverse Polarity Protection
-

■ Applications

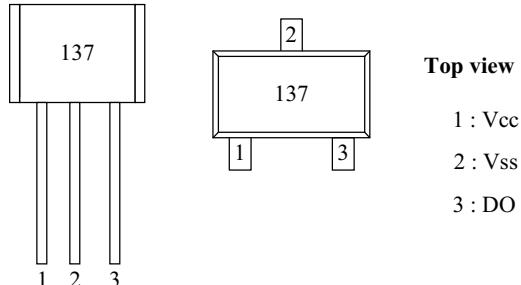

- VCD/DVD loader, CD/DVD ROM
- Cover detector
- Speed measurement
- Home appliances
- Home safety

■ Absolute Maximum Ratings (at Ta= 25°C)

- Supply Voltage, Vcc 20V
- Reverse Vcc Polarity Voltage, V_{RCC}..... -20V
- Magnetic flux density, B..... Unlimited
- Output OFF Voltage, Vce 30V
- Output ON Current, Ic (continuous)..... 25mA
- Operating Temperature (Ta) -20°C ~ 85°C
- Storage Temperature (Ts) -65°C ~ 150°C
- Package Power Dissipation (Pd) 400mW (SIP-3L)
(Pd)..... 200mW (SOT23-3L)
- Maximum Junction Temp.(Tj) 175°C

■ Application Information

- Operating principle

ATS137 is a three pins Hall Effect switch IC which can turn magnetic flux variety to digital output signal. In other words, it is an interface from magnetic system to electrical one by Hall effect. The illustrations are shown in Fig.1.

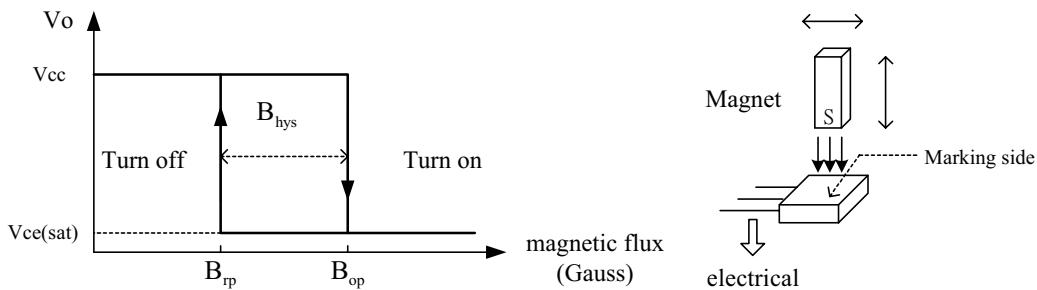

Fig.1 Hall-effect switch

Output driver is open-collector topology and maximum sink current (I_{sink}) is 25mA. The illustrated circuit is shown as Fig.2.

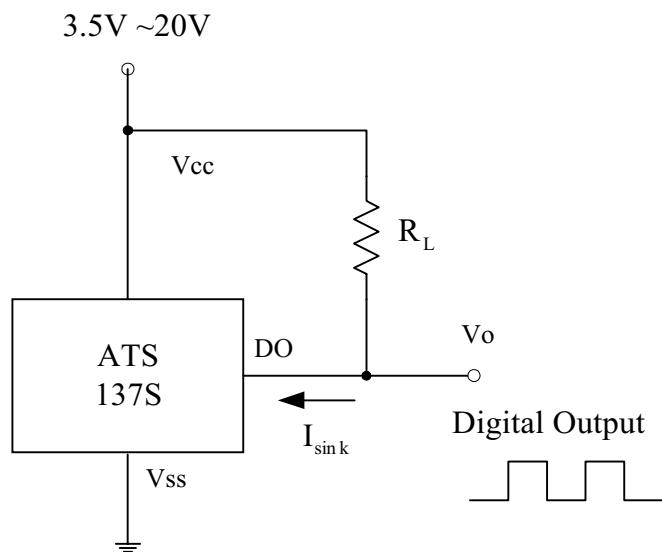

Fig.2 Application circuit

V_o will turn on (low) if the S magnetic flux larger than operation point (B_{op}), and turns off whenever the magnetic flux is removed and lower than release point (B_{rp}). The related waveforms are shown in Fig.3.

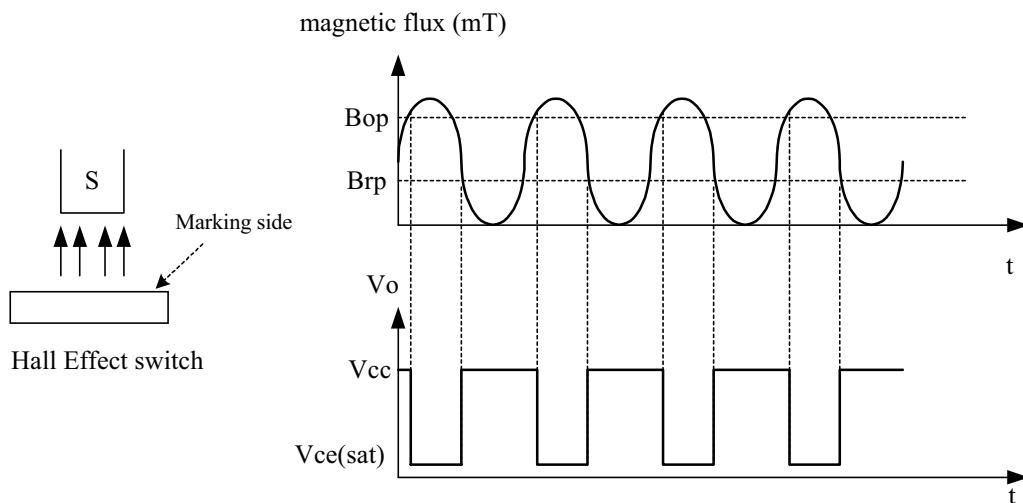

Fig.3 V_o and magnetic flux variety

The major applications are for contactless switching and shown as follows:

- VCD/DVD loader, CD/DVD ROM: Detect if the tray is opened or closed
- Cover detector (open/close): Cellular phone cover detector, Refrigerator door detector, Microwave oven door sensor... etc
- Home safety: instead of reed relay to detect the situation of door/window.
- Due to contactless and without mechanical contact point, its reliability and life cycle are much longer than reed relay. In addition, its switching speed is much faster than mechanical devices.
