

4CH BTL DRIVER FOR CD PLAYERS

The KIA6831HF is 4ch BTL drivers for CD player actuators and motors. This IC have internal 5V regulators and general purpose operational amplifiers.

FEATURES

- Built-in Thermal Shutdown Circuit
- Wide Dynamic Range
: 5.4V(Typ.) ($V_{CC}=8V$, $R_L=8\Omega$)
- Built in 5V Regulator. (requires Attached PNP transistor)
- Built in OP-Amp.
- Built in Mute Function
- Gain is Adjustable With a Single Attached Resistor.
- Operation supply voltage range : $V_{CC}=6.0\sim 9.0V$.
(4.5~9V When regulator not used (pin⑤ and ⑥ may be open))

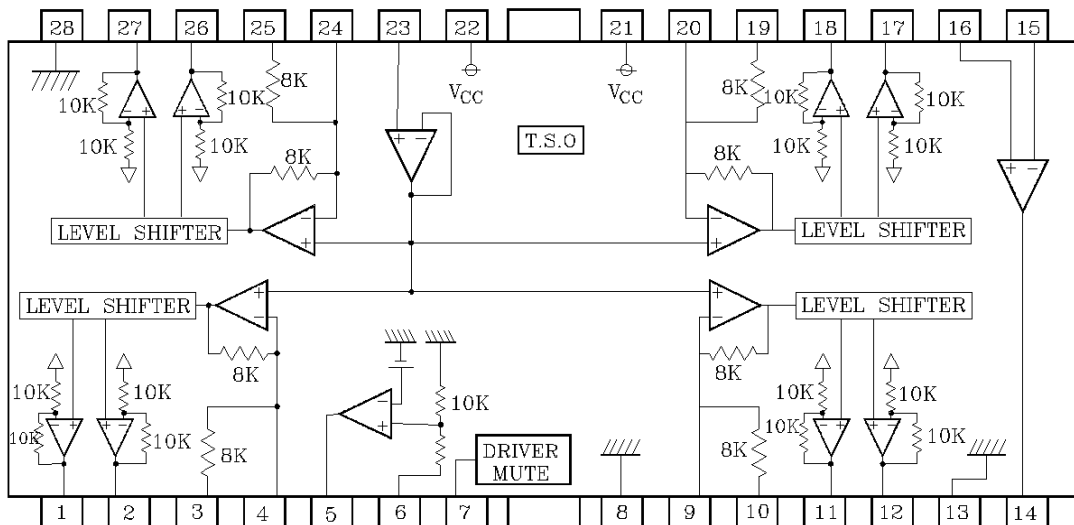

MAXIMUM RATINGS ($T_a=25^\circ C$)

CHARACTERISTIC	SYMBOL	RATING	UNIT
Supply Voltage	V_{CC}	18	V
Power Dissipation	P_D	1.7 (*1)	W
Operating Temperature	T_{opr}	-35~85	$^\circ C$
Storage Temperature	T_{stg}	-55~150	$^\circ C$

- Note) (*1) : • When mounted on 50mm×50mm×1mm PCB (Phenolics resin material).
• Power Dissipation reduces 13.mW/ $^\circ C$ for using above $T_a=25^\circ C$
• Do not exceed P_d and SOA.

● Operation notes

1. The KIA6831FP have an internal thermal shutdown circuit. Output current is muted when the chip temperature exceeds 175°C (typically) and restored when the chip temperature falls to 150°C (typically).
2. If the mute pin (7pin) voltage is opened or lowered below 0.5V, the output current will be muted. Pin7 should be pulled up above 2.0V during normal use.
3. The bias pin (23pin) is muted when lowered below 1.4V (typically). Make sure it stays above 1.6V during normal use.
4. Muting occurs during thermal shutdown, mute-on operations or drop in the bias pin voltage. In each case, only the drivers are muted. During muting, the output pins remain at the internal bias voltage, roughly $(V_{CC}/2)$.
5. Be sure to connect the IC to a 0.1 μ F bypass capacitor to the power supply, at the base of the IC.
6. The radiating fin is connected to the package is internal GND, but should also be connected to an external ground.
7. The capacitor between regulator output (6pin) and GND also serves to prevent oscillation of the IC, so select one with good temperature characteristics.
